

*"Leading the World in Affordable, Effective Portable Foam Systems"*

# 4002V

## 6 GALLON ( 23 Lt) WATER VEST

The Scotty 4002V Water Vest can be used to transport a supply of water and/or foam concentrate (Class A or Class B) to an incident scene. It provides the wearer with a safe and comfortable method to carry liquids used during fire operations. It is made from a fabric re-inforced polyester material, making it extremely durable and UV resistant. The high-visibility yellow colour allows it to stand out through smoke and foliage. When filled through the 2" wide filler port mounted on the right breast, the water fills in completely around the wearer. The 4002V has a standard 3/4" garden hose thread outlet mounted in the rear center, for right or left-handed users. The five individual, adjustable buckle straps are made from high strength nylon webbing.

### 4002V Water Vest

#### Features:

- Capacity of 6 gallons or 23 Lts.
- A 2" wide filler port with cap, mounted on the front right breast allows easy one-person filling.
- Three quick clips with adjustable straps connect across the chest to securely hold the vest in place.
- Two extra quick clips, one on the front of each shoulder, enables the wearer to quickly release and exit from the vest.
- -A standard, 3/4" Garden Hose Thread outlet port located on center rear.
- Folds away for storage.

The 4002V can be purchased alone (4002V) or with a 4000 Water Hand Pump and 4' Pick-up Hose (4000-V) or with a Foam Hand Pump (4000F-V).

*(The 4002V Water Vest is pictured at left with a 4000 Water Hand Pump and 4062 Pick Up Hose)*
